

FEATURES

- **Category 5 UTP Cables**
- **Available in a Variety of Lengths from 50' to 300'**
- **Molded RJ45 Connectors for Easy Connection and Enhanced Durability**
- **Exceptional Value**
- **Ideal for Use with INLINE Twisted Pair Video Transmission Products and Twisted Pair Video / Keyboard / Mouse Extender System**

The IN9500 Series are high quality Category 5 unshielded twisted pair (UTP) cables designed to provide a high performance link between twisted pair receivers and transmitters. These cables are recommended for INLINE twisted pair video products and video / keyboard / mouse extenders as listed below:

- **IN1110 / IN1111 Twisted Pair Transmitter and Receiver for High Resolution Video**

- **IN1124 / IN1130 Twisted Pair Transmitter / DA and Receiver / DA for High Resolution Video and Stereo Audio**
- **VKM01 Twisted Pair Video / Keyboard / Mouse Extender System**
- **TPT101 / TPT111 / TPR101 Twisted Pair A/V Transmitters & Receiver**

IN9500 Series cables are terminated with molded RJ45 connectors and a flexible cable strain relief, providing easy handling and excellent durability. Available in a variety of lengths from 50 feet to 300 feet, the IN9500 Series CAT5 cables make it easy to

deploy twisted pair video transmission systems for permanent installation or temporary use.

IN9500 SERIES

CAT5 UTP CABLES

SPECIFICATIONS

Connectors: RJ45

Conductors:
(4) Unshielded Twisted Pairs —
24 AWG Solid Tinned Copper

Nominal Impedance:
100 Ω @ 1 - 100 MHz

Nominal Capacitance: 17 pf / ft
Outer Diameter: 0.22" / 6mm

ORDER INFORMATION

IN9550	50' CAT5 Cable, RJ45 Male to Male
IN9575	75' CAT5 Cable, RJ45 Male to Male
IN95100	100' CAT5 Cable, RJ45 Male to Male
IN95150	150' CAT5 Cable, RJ45 Male to Male

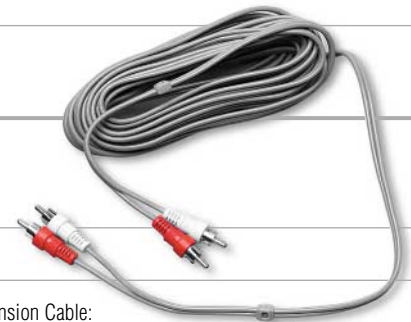

IN95200	200' CAT5 Cable, RJ45 Male to Male
IN95250	250' CAT5 Cable, RJ45 Male to Male
IN95300	300' CAT5 Cable, RJ45 Male to Male

IN8700

STEREO AUDIO CABLES

The IN8700 Series stereo audio cables are designed to interconnect line level audio signals between audio equipment inputs and outputs. These cables feature

separate conductors to carry the left and right audio signals and are terminated with high quality RCA male connectors color coded red and white.

ORDER INFORMATION

IN8706	Stereo Audio Extension Cable: 2 RCA Male to 2 RCA Male, 6'
IN8710	Stereo Audio Extension Cable: 2 RCA Male to 2 RCA Male, 10'

IN8725	Stereo Audio Extension Cable: 2 RCA Male to 2 RCA Male, 25'
---------------	--

IN8900

STEREO AUDIO + VIDEO CABLES

The IN8900 Series cables are deluxe interconnect cables for composite video and stereo audio. The thicker conductor is a 75 Ω 20 AWG coax cable specially designed to carry a composite video signal.

The two thinner conductors are designed to carry stereo audio line level signals. The cables are terminated with three high quality RCA male connectors on each end and are color coded yellow, red and white.

ORDER INFORMATION

IN8906	Deluxe Stereo Audio + Video Extension Cable: 3 RCA Male to 3 RCA Male, 75 Ω Mini Coax for Video, 6'
