

## CPM103MK

## Modular AV Connector Panel for Double MK Boxes Preliminary Data Sheet

- **Modular Faceplate Accepts Up to Six A/V Connector Modules** to Create a Custom A/V Connector Plate Optimized for Each Application
- **Modular Design Prevents Obsolescence**
- **Over 75 Connector Modules Available** Featuring Popular Video, Audio, Phone, Data, and Control Connectors
- **Specially Designed for UK and Selected Asian Countries that Use MK Junction Boxes** - Faceplate Mounts in Standard Double MK Flush, Dry Lining or Surface Boxes
- **Custom Engraving Available** to Label Individual Connector Modules (Additional Charge for Engraving)
- **Available in Black or White Finish**
- **Beveled Edges Match Appearance of CIA100 Series Installation Interfaces**

The **CPM103MK** is a modular A/V connector plate designed for installation in a wall, podium, boardroom table or other audiovisual / presentation furniture. It is specially designed for use in the UK and select Asian countries that use MK style junction boxes.

The **CPM103MK** provides a clean, simple way to specify and install a wide variety of audiovisual connectors. Each connector can be terminated before mounting it in the modular faceplate. Connector modules are held in place in the faceplate with 3/32" hex screws (included with each connector module). An IN9334 3/32" allen wrench is provided with each CPM103MK modular plate.

### Modular Design Maximizes System Flexibility

The **CPM103MK** lets system designers specify the precise A/V connectors needed for each installation. The modular approach also prevents obsolescence since A/V connector modules can easily be changed to accommodate evolving system requirements.

### Accelerate System Installation

The **CPM103MK** can provide quick turn around times for fast track installations. A/V system integrators can keep the **CPM103MK** modular faceplates and popular A/V connector modules in stock, putting together a customized connector plate in a fraction of the time required for a traditional custom A/V connector plate.

### A/V Connector Modules

**CPM103MK** units accept up to six single-size connector modules (ordered separately). Over 75 different modules are available in black or white finish featuring popular video, audio, phone, data, and control connectors.

### Custom Engraving

INLINE can provide custom engraving services to label the connector modules as required for various applications. Please call to verify pricing and lead time for custom engraving.

### Specialized Modules

Connector modules are also available featuring a variety of specialized connectors such as contact closure switches, 3-pin / 4-pin / 6-pin mini XLR, and 6-pin mini DIN connectors for PS2 type mouse. Many additional specialized connectors are available by special order.

### CPM103MK Models

CPM103MK-1	Modular AV Connector Panel for Double MK Boxes, Holds up to 6 Single-Size AV Connector Modules - Black
CPM103MK-2	Modular AV Connector Panel for Double MK Boxes, Holds up to 3 Single-Size AV Connector Modules - White
